

Identify

Check all Family members for the presence of head lice or nits.
Visit www.lice.co.za to help identify head lice and nits.

Treat

Follow these 3 Easy Steps to treat head lice and nits, you may also visit our website, www.lice.co.za to view the Treet-It Anti-Lice Instructional Video for more assistance.

1

Comb Out - Apply Treet-It Anti-Lice Gel-Cream to dry hair and massage into the scalp and hair for at least 5 minutes. Ensure to cover the areas behind the ears and neck.

Comb Out - Comb out the hair using the fine toothed comb provided. Start combing from the scalp to hair tip. Wipe the comb off on tissue before combing again.

2

Wash - Wash hair with Treet-It Therapeutic Tea Tree Oil Shampoo and rinse thoroughly.

3

Prevent - Dry the hair and spray on the Treet-It Anti-Lice Maintenance Spray, ensuring the spray reaches the scalp. Safe to leave on the scalp till hair is washed again.

Follow this regimen for 2 days, applying and washing twice a day and then continue using the Maintenance Spray for 5 to 7 days.

Prevent

Follow the check list below to help prevent re-infestation as soon as you start with the treatment for head lice.

1

Educate - Speak with family members to avoid sharing items such as hair bands, hats, hair accessories, combs & brushes or swimming caps and towels.

2

Avoid Head to Head Contact - Speak with family members to avoid engaging in sports or activities that involve heads touching where possible.

3

Bring on the Heat - Wash with Hot Water any items such as clothing, bed linen and any other items which came in contact with infested person/s.

4

Bring on the Heat - Tumble dry on highest heat items washed such as clothing, bed linen and any other items which came in contact with infested person/s.

5

Non-Washable Items - Place items into a plastic bag and seal tight. Leave in the sun or warm area for at least one week before removing items.

6

Other Surfaces - Dis-infect and/or vacuum surfaces such as the car seat & head rest, couches and any other surface which came in contact with infested person/s.

7

Extra Precaution - Spray hair with Treet-It Maintenance Spray every morning before leaving home as an extra preventative measure. Safe to leave on the hair the entire day.

Handy Tip

Treet-It Pure Tea Tree Oil - Add 5 to 8 drops to water in spray bottle to spray on surfaces to help disinfect and help repel head lice. Can also add 5 to 10 drops to each load of laundry. Not only will it help to disinfect, but will also leave laundry smelling clean and fresh.
